Activities: -

Launched IPF Scheme- Concession for poor patient's scheme framed by the High Court-Bombay for Indigent and weaker section persons under section 41AA of BPT Act. Under this scheme the hospital has reserved & earmarked 10% beds of the total number of operational beds. 2% of our hospital income has been reserved as IPF (Indigent Patient Fund) for Indigent and weaker patients. During this year the hospital trust spends Rs.49,550/- on poor patients under this scheme. The Beneficiary includes mostly Adivasi tribes, Field laborers & poor families.

On 87th Birth Anniversary of our founder & President Dr. J. D. Samant was observed on 17th October 2021. On this occasion we organized a Blood Donation Camp in which 19 noble hearted donors have donated blood.

The trustees are highly obliged to Hitech Corporation Ltd, Topiwala Charitable Trust & Alkem Laboratories for their great support to our Trust. With their help we have started a Covid vaccination Center in our hospital. As per the list declared by the Government, we are the only one Trust's Hospital for FREE COVID VACCINATION in Vasai Taluka. We have vaccinated 500 people.

We are glad to say that our physiotherapy department and pathology department are fully equipped with advanced machinery & equipment. An average of 200 to 250 patients per month are taking advantage from pathology department by testing blood at a very low rate. In the month of March, we had conducted a "Body Profile" camp only for Rs. 1499/- from which 75 patients have taken benefit.

Future Plans:

- Requirement of Departments: The response to the hospital is encouraging and there is a need of expansion to accommodate the department of Sonography, Cardiology, Pediatric, & Gynecology.
- Palliative Care: Though palliative patient's care is taken at present; we have limited beds and the number of such patients is increasing and there is a need for eldercare too as the social structure of India's families' changes the "graying of the globe" affects even rural. Many elder persons find themselves neglected or displaced in their last years. The Trust is finding a solution that respects the elders' dignity and autonomy and best medical treatment is given to them and they are taken care of medically. Plans are already underway to build an Eldercare Facility Department. The trust has already purchased additional land and an extension of 4000 sq. ft. is to be built for the above-mentioned departments.
- Gratitude:

We are extremely thankful to Mr. Sameer Desai our architect & Mr. Shaillesh Jadhav our legal advisor for providing their services free of cost & they have been helping us consistently.

I would like to thank all the Doctors for their unwavering trust and support in our journey. I thank you, our esteemed donors for the tremendous trust & support, without their support we will not be able to venture into new domains in healthcare delivery. Beyond anything, my gratitude goes to my "Shree Mahalaxmi Hospital" family who have stood together with us in our journey. Without their unconditional support, we would have scored far fewer wins.

My warm personal regards to all of you,

Arnala Health Trust

Jeronima Jagdish Samant
President & Chief Trustee
